This action is responsive to applicant's amendment/remarks filed 04/10/06. Claims 1, 3-9 and 12-29 are currently pending.

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Cancel non-elected claims 17, 24 and 26-28.

In claim 18, line 2, after "different portions" add --of a substrate--.

In claim 25, lines 2-3, delete "organic conductive layer according to claim 17" and replace with --composition of claim 1--.

In claim 29, lines 3-4, delete "organic conductive layer according to claim 17" and replace with --composition of claim 1--.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Steven Allis on 06/07/06.

The following is an examiner's statement of reasons for allowance:

Initially, note that claims 9, 18-23, 25 and 29 have been rejoined.

The instant claims are allowed for the reasons set forth by applicant in the response filed 04/10/06. Specifically, the prior art of record does not disclose or fairly suggest the instantly claimed compositions/methods containing glycol medium and 0.01-0.1 wt% acetylenic alcohol surfactant. Additionally, applicant has shown by way of direct comparative examples that the claimed compositions result in superior/unexpected properties as compared to compositions outside the scope of the instant claims (see examples/comparative examples in the specification).

Newly cited Kirchmeyer et al (2002/0077450) and equivalent EP 1215224 are cited as state of the art polythiophene compositions.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
